Adelante Healthcare

Adelante Healthcare received its first Federal 330 grant in 1979 to operate as a Federally Qualified Health Center (FQHC).

We started as an agricultural, mostly rural clinic serving migrant farmworkers, farmers and their families in El Mirage, AZ.

Nine health centers in Maricopa County serving 85,000 patients

300,00 visits annually

ADELANTE
HEALTHCARE

Grants and Community Programs

❑ HIV Prevention
❑ Hypertension/Remote Patient Monitoring
❑ Well Woman Program

❑ Tomosynthesis Mammographic Imaging Trial (TMIST)
❑ GI Clinic with Mayo GI Fellows
❑ Free Transportation Program

These programs help low-income, uninsured, and underinsured patients complete screenings and diagnostic studies for various cancers by providing financial support

Population Health Tool for Data Analytics

- ❑ Azara DRVS (Data Reporting and Visualization System)
- ❑ Setup specifically for Community Health Centers
- ❑ A centralized data reporting and analytics solution which facilitates care transformation, drives quality improvement, aids in cost reduction, and simplifies mandated reporting.

Identifying Eligible Patients

> This alerts the site team of enrollment status through our huddles.

Azara is our main resource for:
- Outreach Lists
- Alerts for potential eligible patients that will be in office.

Adelante Healthcare

Thanks
