Budget Towards Clients and Services

Kids First Health Care

- Delivers pediatric healthcare straight to schools across Colorado to reach children who need their services most.
- Serves approximately 4,000 children annually.
- Majority are covered by Medicaid or CHP+, 17% are uninsured.
- Joined Contexture in 2015
- Relies on PatientCare 360® to access patients' records, generate CCD's and to make sure immunizations are included in students' medical records.
- Ensures coordination among all members of the care team, even providers outside the school-based health center.
- Relies on Contexture HIE services to help submit eCQMs for use within Medicaid, Medicare, and other advance payment models.
