About Arizona's HIE

- Founded in **2007**.

- An HIE allows healthcare providers to securely **share clinical information among different information systems** to facilitate timely access of accurate data to support patient-centered care.

- Over **1,100 Arizona HIE participants** and growing.

- Over **300 data sources** sending patient medical records for sharing.

- Data available on **12+ million** individuals.

- Home of **Arizona Healthcare Directives Registry (AzHDR)** and social determinants of health (SDOH) referral system, **CommunityCares**

- Joined forces with a Colorado-based HIE in 2021 to form Contexture.

What is DAP?

- DAP aims to distinguish providers that have committed to supporting designated actions that improve patients' care experience, improve members' health and reduce cost of care growth.

- An integral part of the DAP includes HIE, SDOH, and AzHDR programs.

- HIE requirements have been a key component of DAP policies since the program began in CYE 2017.

- DAP is based on CYE, contract year for AHCCCS and its MCOs – which is equivalent to federal fiscal year (FFY).
  - CYE 2024 = Oct. 1, 2023 to Sept. 30, 2024
  - CYE 2025 = Oct. 1, 2024 to Sept. 30, 2025

DAP Review

- Preliminary Public Notice posted to AHCCCS website **January 31, 2024**

- Public comments accepted through **March 1, 2024**

- Final Public Notice to be published around March 16, 2024

ARIZONA
Healthcare Directives Registry

Arizona Healthcare Directives Registry (AzHDR)

Statewide Registry for Advance Directives Available to All Arizonans

- The AzHDR is designed to help honor patients' end-of-life healthcare preferences by providing seamless access to advance directives, across the continuum of care. The secure online AzHDR provides a safe place to store and make accessible Arizonans' advance directive documents so end-of-life care will be guided by one's wishes.

- The AzHDR is available at no cost and offers easy access to healthcare providers and facilities at the time of medical need.

- Participating providers can access advance directives. Providers need to sign up to participate. The registry allows for both submitting and viewing patients'/clients' advance directives.

- **Eligible hospitals and providers can get a DAP increase upon AzHDR milestone completion.**

SDOH Referral System – CommunityCares

- **Single, Statewide SDOH Referral System**
  Contexture teamed with AHCCCS and, in collaboration with Solari Crisis & Human Services and 2-1-1 Arizona, implemented CommunityCares to address social determinants of health (SDOH) needs in Arizona.

- **New Technology Platform**
  Powered by Unite Us, the system is designed to connect **healthcare providers and community-based organizations** to streamline the referral process, foster easier access to vital services and provide confirmation when social services are delivered.

- **DAP**
  Eligible hospitals and providers can get a DAP increase upon SDOH milestone completion.
